Bamboo Cassiopeia 7 V1: 2A3B2C is a horizontal mobile chandelier with seven glowing bamboo shades. The Cassiopeia Series has many variations and is fully customizable.

The hanging system of The Cassiopeia Series uses square brass tubes to conceal the wires and specially designed joints to create its eccentric shape. The fixture's slight, almost imperceptible movement keeps it pleasantly animated. Cassiopeia 7 V1 can be extended horizontally to fit specific spaces and other size shades can be used.

We work closely with designers to explore what will work perfectly for your project. Utilizing 3D models, full scale mock-ups, and finish samples, we develop the design until it is exactly what your space needs. Staining, gold leaf, and nickel finishes are available for an up-charge.
