Bamboo Ivy 3: ACF is a large mobile chandelier with 3 glowing bamboo shades arranged in size order. The Ivy Series is vertically oriented and designed for spaces with high ceilings. It's perfect for entry halls, great rooms, and lobbies.

The hanging system of the Ivy Series uses square brass tubes to conceal wire and specially designed joints to create its eccentric shape. The fixture's slight, almost imperceptible movement keeps the piece pleasantly animated. The Ivy 3 is customizable, and can be extended or reduced both vertically and horizontally.

We work closely with designers to explore what will work perfectly for your project. Utilizing 3D models, full scale mock-ups, studio visits and finish samples, we develop the design until it is exactly what your space needs. Staining, colors, gold leaf, and nickel finishes are available. Costs vary.
